

Endurance 80/60/40/10 unmanned checkpoints

There are 1 un-manned checkpoint on E10, 4 on E40, and 7 on E60/80 you must visit all of them. At each location you will find a “team tracker” beacon/transmitter attached to gate/fence/signpost that you should use to scan the tag on your own walker card (the tag is the sticker circled in blue in the photo below) in the appropriate place on the device and wait a few seconds till the light on it turns green, then you can continue (each walker must scan their own tag). This will record you have been to the CP and transmit the information to Hike control. If you have difficulties or the “team tracker” is missing please report it to the next Checkpoint you visit and ask them to advise HQ. Please leave the “team tracker” where you found it !
